PROFILE

WordPress Developer and UI/UX Designer creating modern, responsive websites that are clear, useful, and built around real user needs. I combine thoughtful interface design with clean WordPress development to turn ideas into polished digital experiences.

From wireframes and high-fidelity UI to responsive implementation, e-commerce, integrations, and ongoing improvements, I focus on practical solutions that balance visual quality, usability, and business goals.

CORE EXPERTISE

UI / UX	Wireframing · User Flows · High-Fidelity UI · Prototyping · Responsive Design
WORDPRESS	Custom Websites · Elementor · Theme Customization · WooCommerce · CMS
DEVELOPMENT	HTML · CSS · PHP · JavaScript · API / Third-Party Integrations
OPTIMIZATION	Performance · Responsive Fixes · Maintenance · SEO Foundations

EXPERIENCE

WordPress Developer & UI/UX Designer

CURRENT

Independent / Freelance

- Design and develop responsive WordPress websites from concept and wireframes through final implementation.
- Create user-focused interfaces in Figma and translate approved designs into maintainable WordPress builds.
- Work across business websites, portfolios, landing pages, e-commerce, custom workflows, and third-party integrations.
- Improve existing websites through redesign, responsive fixes, performance optimization, and ongoing support.

Selected Project Work

RECENT

Digital Products & Client Websites

- OrderTapTap — e-commerce platform covering storefront ordering, checkout, payments, CRM, automation, campaigns, and WhatsApp customer interactions.
- Bhaktapur artisan e-commerce concept — storefront with custom checkout and inventory connected to physical stock.
- Portfolio and business websites — responsive layouts, custom sections, Elementor implementation, and user-centered navigation.

SELECTED WORK

- ↳ **OrderTapTap**
E-commerce · Product / UX
Unified ordering, checkout, payments, CRM, automation, campaigns, and WhatsApp-based customer interactions.
- ↳ **Bhaktapur Artisan Store**
E-commerce · Checkout · Inventory
Storefront concept connecting online sales with physical stock through a streamlined customer journey.
- ↳ **Personal Portfolio**
UI/UX · WordPress · Elementor
Personal site focused on clear navigation, responsive layouts, subtle motion, and the connection between design and development.

TOOLS & TECHNOLOGIES

Design: Figma · Wireframing · Prototyping · UI/UX Build: WordPress · Elementor · WooCommerce · PHP · HTML · CSS · JavaScript Workflow: APIs · Responsive Design · Performance · Maintenance
